Merritt Island, FL 32952

This class is being offered at a discount price to members. Nonmember price for class is \$67. What a deal. Class size is limited to 8 with priority give to members.

**Description:** This six weeks' course covers five main topics essential for successful boat handling. The presentation includes lecture, video and hands-on activities. Even the experienced boater will acquire new knowledge to make boating a more enjoyable activity. Topics include: anchoring; docking techniques under all conditions; United States Coast Guard Rules of the Road; how to avoid and react to emergencies; a session devoted to the use of lines and knots. Successful completion of the test results in the member receiving the Seamanship grade, a prerequisite for enrollment in the navigation class, Inland Boating. **Since the text is in the e-book format, prepayment is required. Students will be instructed on the process of downloading the e-book upon enrollment. (Accommodations will be made for persons who cannot access e-books)**
